## MOUNT KATO BICYCLING CODE OF CONDUCT

We want you to achieve maximum fun in your bicycling experience. To preserve both your own safety and the fragile environment it's important to follow certain guidelines:

- Be aware that your safety is directly affected by your judgement. Know your ability and ride within it. When in doubt walk.
- Approved bicycle helmets are required. Eye protection, enclosed footwear and water are highly recommended.
- Rick only on designated trails to avoid trampling vegetation and minimize potential erosion.
- Ride in control and be prepared to stop at any time. Slow down if you do not have clear vision of the trail in front of you. Portions of the trail may require vehicu ar traffic.
- It is not advisab le to ride alone as our trails are not continuously patrolled or cleared at the end of the day.
- Never ride under the influence of drugs or alcohol. Smoking is strictly prohibited on trails.
- Make your presence known and slow down when approaching or overtaking another rider.
- Do not stop where you obstruct a trail or where you are not visible to other riders.
- Pets are not permitted on trails. Let your experience and ability determine your route and travel speed.

*Helmets are required on trails at all times.*

*Stay on marked trails or you will lose your pass!*
